

Trigger: The Pericolo Series

STANDALONE in The Pericolo Series. I used to watch her through the lights. I watched as her body turned and twisted as she morphed into my siren. I wanted her I craved every ounce of Ryleigh Turner. But I knew once I had her, all I would do was corrupt every inch of her pretty little soul. Valentinos aren't made for tales of love. We star in the horror stories you fear. We're the monsters that make you scared to ever hope again. It's time that she realizes that. **** Hes watched me for months, given me every reason to allow my curiosity to start killing me slowly. He makes the world melt away; he makes me want to throw all my inhibitions away and greet him personally. But every time the music ends and the lights lift, he vanishes, crushing my hopes. Until one day, a moment of chance happens. How does a man like Dante Valentino cope with a woman as messed up as me? Easy. I let him have every inch of my tainted soul. *** Not all love stories have a beautiful start. Some just need a perfect trigger. **This is a dark romance with intense scenes of murder and sex. There is coarse language used throughout. Not for the faint hearted.
