Its like shes starring in her very own Fifty Shades of Grey, complete with sexy BDSM fetishes and all. But theres a difference between fiction and real life; sometimes what you fantasize about isnt what you want in reality. When the billionaires kinks become too much, will she be brave enough to walk away? Then theres the best friend. Theres something stirring there. Shes starting to notice him in a whole new light. But if she acts on it, will it ruin their friendship? BDSM experimentation in this book includes bondage, whipping, handcuffs, blindfolds, clamping, hot and cold play, and of course lots and lots of smoking hot sex! This 40,000 word compilation includes the complete Billionaire and the Best Friend bundle of short story novellas:

BLIND DATE (Book 1) I exercise control in all things, Miss Carpenter. I recognized the line, from 50 Shades of Grey. Oh That kind of contract. Im what they call a Dominant. I cleared my throat. Ive read 50 Shades. I know what that means. Tiffany is fresh from a failed relationship, so the last thing on her mind is a blind date. But when her best friend sets her up with a smoking hot billionaire, she cant turn the offer down. Hes kinky, and she likes that - her very own Christian Grey. But when she gets to the part where she has to sign the contract, shell realize there are many differences between herself and Anastasia Steele.

BLIND SPOT (Book 2) Things are complicated - two gorgeous, smoking hot men want Tiff, and she doesnt know which to choose. The billionaire is sexy, rich and used to getting his own way. On the outside he seems perfect. But inside?

Something dark is growing. Something terrifying, lying just below the surface. The best friend is hot as well; Tiff is just starting to notice his gorgeous blue eyes and impressive physique. The problem is, she's never seen a relationship of his last longer than three weeks. She doesn't want to become another notch on his bed post. With both men chasing her, Tiff runs from one and into the arms of the other. The sex with its blindfolds and some very hot (and cold!) temperature play is amazing - but has she made the right decision, or the worst mistake of her life? **BLIND TRUST (Book 3)** Love takes a sinister turn when Tiff finally decides on the man she wants to be with. Jealousy takes center stage and true colors are revealed as both men fight for her hand. One date will go horribly wrong. On the other well he might just save her life. Everything gets put on the line as the trilogy builds to a thrilling climax in this romance with a difference, blending hot BDSM with a plot that will keep you guessing till the very end! Half thriller, half erom, it has a happy ending (HFN) and contains a BDSM scene which is for adults only, including handcuffing, bondage and light clamping. What readers are saying: Not your typical Billionaire romance. Good plot & plenty of potential. The will they wont they is hot. A MUST READ book.
